

VALUABLE AID GIVEN FRENCH BY 100 WOMEN

Vacation War Relief Committee
Has Forwarded Shipments
Valued at \$600

As a result of the efforts of a group of earnest women, members of the guild of St. Andrew's cathedral, shipments of hospital shirts, surgical dressings, bandages, socks, handkerchiefs and other articles, valued at nearly \$600, have been sent to Paris during the last three months for the relief of the French wounded.

About 100 women of Honolulu have had a share in this enterprise, working under the auspices of the American Red Cross for French Wounded. Thirty-five persons have subscribed about \$25.45 for materials. At a meeting of the women this afternoon in the parish house, St. Andrew's cathedral, reports were presented showing the work accomplished since the organization three months ago.

Active All Summer

The July shipment to Paris consisted of 107 shirts valued at \$108. In August 119 shirts and surgical dressings, one case of each, valued at \$160, were sent forward. Thus far this month 120 cases containing 116 shirts, 248 surgical dressings and miscellaneous articles, valued at \$140, have been sent. The total value of shipments sent since July is \$578.

Splendid Work Done

In her report this afternoon Mrs. Henry Bond Restarick, chairman of the committee, told of the organization of the work, explaining how a number of women had decided to form the Vacation War Relief Committee. Three weeks after organization, she said, 107 shirts were ready to be sent forward. To date, she added, nearly 400 shirts and 3000 surgical dressings, including gauze and bandages, have been shipped.

She praised the work of Miss Eva M. Stevens, treasurer and director of the committee, who leaves for the mainland next Tuesday. It was announced that, until the return of Mrs. I. Tenney Peck, the regular treasurer, Mrs. Restarick will act as treasurer and Mrs. E. L. S. Gordon, wife of the local British consul, will be chairman.

Work With Red Cross

During the coming month the work of the committee will be directed toward the assistance of the British Red Cross Association. Mrs. Restarick reported. She pointed out that at least three times as many workers as at present will be needed. It is expected that in one month the committee will be able to forward a shipment valued at \$500. This will include hospital shirts, surgical dressings, socks and other necessities. J. H. Davidson & Co. has offered to supply the committee with all necessary material for its work for the British Red Cross, this material having formerly been sent the committee about \$16 a day. This will amount to a gift by the company of about \$160, Mrs. Restarick says.

BUILDING PERMITS

A. G. Cunha to erect two cottages for dwelling at Pawa. A. H. Cunha, architect. Y. Kobayashi, builder. Cost \$1800.

W. Vanderford to erect house for dwelling at Kalihi. J. W. Craig, architect; W. Vanderford, builder. Cost \$1750.

M. J. Doolittle to erect building for dwelling at Lunalilo street. D. F. Doolittle, architect; W. Knack & Co., builder. Cost \$1450.

John M. Young to construct mezzanine floor for office at Ewa side of Fort street. Pacific Engineering Co., builder. Cost \$500.

The Central Trust Company of Honolulu was closed by order of the State Banking Department.

DOOR OPENED TO CANDIDATES FOR TALKS TO LEPERS

Prohibitive Resolution of Eight
Years Ago Rescinded By
Board of Health

Maui candidates for the house, senate and delegateship, irrespective of party or party faction, for which the residents of Molokai vote, hereafter will be permitted to deliver campaign speeches to the inmates of the leper settlement at Kalaupapa, providing, of course, they secure the necessary permit from the board of health.

This is a privilege which has been granted to the candidates for the first time in eight years. At a special meeting of the board of health, held one evening early this week, Attorney General I. M. Stainback moved to rescind a resolution of the former board prohibiting the candidates from campaigning on Molokai. The motion was seconded and adopted.

Issue Raised in 1904

This issue was first raised in 1904, when Democratic candidates on Maui went into court in an action to force the board of health to allow them to speak to the inmates of the settlement. The court found for the candidates and the board of health let them go in. During the litigation James L. Cooke was a candidate for the senate.

Eight years ago, following the campaign of 1904, the board of health passed a resolution preventing the candidates from going to the settlement on campaign or other political business. Action to persuade the present board to rescind the resolution was begun a few days ago when Dr. J. H. Raymond of Maui, candidate for the senate on the Democratic ticket, sent to Attorney Cooke the following letter addressed to Dr. J. S. B. Pratt, president of the board of health:

"I hereby make application for the privilege of visiting the leper settlement some time between the date of the primary election and November 7, 1916, for the purpose of addressing the 400-odd voters at that place. I am a candidate for the senate on the Democratic ticket."

"I am aware that a rule was made some years ago by your honorable body prohibiting the candidates from visiting that place, and I desire to say that, as a medical man, I cannot understand why such a ruling should be made as there cannot possibly be any harm in the inmates of the settlement listening to the speeches that are made to them under settlement conditions, which insure order and prevent contact or prolonged visits."

"I consider that the voters should have the right to listen to the arguments of both sides and as these voters in this election hold the balance of power I contend further that it is no more than right that I be allowed to address them on the political issues of the day."

Before Attorney Cooke had an opportunity to present the letter to Dr. Pratt, Dr. Raymond came to Honolulu and had a conference with the president of the board, laying before him his reasons why the candidates should be allowed to address the residents of the settlement.

Dr. Pratt said that he did not want to take personal action in the matter because of the prohibitive resolution then on record. He called a special meeting of the board of health, at which time oral application was made by Dr. Raymond. Attorney Cooke also spoke in favor of the application and Attorney General Stainback expressed himself as also being in favor of it.

Resolution Rescinded

After thorough discussion the board voted to rescind the former resolution, thus throwing open the doors for the candidates to visit the settlement under such restrictions as the president of the board of health may consider in the best interests of all concerned.

Dr. Raymond, in making his application, declared that candidates of all parties have the same privileges and that the privilege should extend to the candidates for delegates to Congress. All candidates for which the Molokai voters cast their ballots must, however, have an individual permit from the board before visiting the settlement.

"This is certainly a great thing for the inmates of the settlement," Attorney Cooke declared today. "It will please them more than an opera or moving pictures. It will be a diversion. They will live on it. They live from year to year just to see and hear the members of the legislature. I think it is a fine thing. And it is still better for the reason that all parties are included and one party is not trying to 'put one over' on the other."

The first news of the action of the board was published in the Star-Bulletin on Thursday, coming to Honolulu in a special despatch from this paper's correspondent on Maui.

HAWAIIAN ELECTRIC TO BUILD SUB-STATION ON LAND PURCHASED TODAY

As a result of the increase of business, the Hawaiian Electric Company has purchased a lot at the corner of School street and Holokahana lane on which site they plan to erect a sub-station. The size of the lot is 10,726 square feet and was purchased from Yee Kai Yee for \$3250.

The deed was filed this morning and it is understood that the construction of the new plant will be started as soon as material can be brought from the mainland.

AH LEONG IS GIVEN WARNING TO CLEAN STORE

Food Commissioner and Health
Inspector Make Joint
Investigation

In an inspection trip shortly before noon today to the store and warehouse of L. Ah Leon, Chinese merchant, Food Commissioner A. W. Hansen and Inspector Clifford carried out by Food Commissioner A. The officers today, who kindly granted Charles, conditions of such a degree were found that the proprietor was given orders to clean up immediately. Incidentally the Chinese merchant received one of the severest lectures on sanitation and cleanliness of his life.

"If you do not take steps immediately to put this place in better condition," Commissioner Hansen told him, "you will be arrested for violation of the food laws."

Ah Leong, who is said to have a "bacle" trade of no mean proportions, trying vainly to offer excuses for the condition of the store and warehouses, finally nodded emphatically and responded "all right, all right." The carrying out of the promise will be watched carefully by the food inspectors. The officers today who kindly granted permission to a member of the Star-Bulletin staff to make the trip with them, found two beds in upper rooms of the store building, though Ah Leong claims he does not sleep there at night. He uses them to rest on, he says. Sleeping in a store is prohibited by the health laws through rigid regulations. About one of the beds, almost close enough to touch, were piled various articles of food—mostly cereals.

Dirt lay everywhere on the shelves, cobwebs hung from the rafters overhead and from corners of the rooms, and two small children played here and there about open boxes and bags of food.

Downstairs the inspectors found boxes of goods piled indiscriminately in the back portion of the store. Cockroaches clung here and there to the walls and crawled about open packages of dried fruit.

The inspection made in the warehouse of the company at Kakaako today revealed thousands of flour moths upon the piles of sacks, which, according to the inspectors, will develop worms that will seek shelter in the flour itself. No worms were found in the warehouse in today's investigation, but were discovered yesterday in large quantities at the store.

A considerable quantity of goods was destroyed at that time, the list including salted peas, pears, peaches, grapes, blackberries, strawberries, cranberries, red raspberries, condensed milk, melon and lemon compound, mushrooms, asparagus, dill pickles, clams, Japanese fish, pork, apricots, tomatoes, mixed jam, sweet corn, green olives, poha jam, guava jelly and jam, spaghetti and cherries. Most of these were in quantities of from one to 10 cans.

In addition to this were 12 large bags of white flour, 11 small bags of white flour, 15 small bags of whole wheat flour and four small bags of graham, as well as other material which was declared unfit for use.

COUNTY FAIR IS OPENED; SUCCESS IS NOW ASSURED

(Continued from page one)

Churston at the convention at Wailuku, Maui, in 1914, called for joint action and cooperation by the counties and territories so that on each island there should be a main road connecting with the several districts and the ports; the construction and maintenance of which should be supported out of a special fund from taxes.

The designation of this road, according to the resolution, was to be upon the recommendation of the board of supervisors with the approval of the territory.

It was held that there should be a territorial road board in each county, having control of the laying out and the construction and the maintenance of all the territorial roads in its respective jurisdiction. The road boards were to consist of the respective boards of supervisors and two persons each appointed by the governor.

The roads resolution further demanded that all employees on the territorial roads be under civil service with their length of service to be based on efficiency and that all work in connection with the territorial roads should be supervised by a competent engineer.

QUARANTINE IS STILL BOTHERING CITY FATHERS

Seek Advice From Dr. Trotter
if Lifting of Inspection
Would Hinder Work

A letter inquiring whether the stopping of quarantine inspection of American vessels from San Francisco to this port would in any way hinder his duties on other vessels, was sent today to Dr. K. E. Trotter, chief quarantine officer for Hawaii, by the health and sanitation committee of the board of supervisors. The letter was signed by William Ahia, chairman of the committee.

Some time ago a resolution was presented to the board of supervisors in which the board would send to the mayor and board of supervisors of San Francisco a letter expressing the board's regrets that San Francisco is considered an infected port here while Honolulu is not. At the present time vessels from here to San Francisco are not inspected while vessels coming from San Francisco here are. At the time the resolution was referred to the health committee. At a committee meeting the question arose as to whether the lifting of quarantine inspection of American vessels would in any way make it more difficult for the doctors to inspect foreign vessels coming here from San Francisco, and this letter to Dr. Trotter was to obtain this information.

Dr. Trotter said today that in replying to the letter he would be unable to give a definite answer as he would have to refer the matter to Washington. He would, however, write the committee, he said, showing them how necessary a quarantine inspection was, irrespective of the nationality.

RULING ON INDICTMENT AGAINST THERESA, ET AL, TO BE APPEALED FROM

WHI T. Carden, deputy city attorney, announced today that he will immediately appeal to the supreme court from a ruling of circuit Judge Ashford Thursday afternoon sustaining a demurrer to indictment charging "Princess" Theresa Belliveau Wilcox, Robert Wilcox, her son, and Y. Ahia, Chinese capitalist, with criminal conspiracy.

Carden says that if the supreme court sustains Judge Ashford's ruling the case will again be presented to the grand jury.

"That is what we would have to do," he adds. He expects to file the notice of appeal in a few days. In the indictment the defendants are charged with conspiracy in a land deal declared to be fraudulent, the name of one Kamei, a Hawaiian, being mentioned as the alleged injured person.

TRANSPORT LOGAN COMING

Advices received at the transportation division of the quartermaster's department state that the transport Logan left Nagasaki for Honolulu on Thursday. She is expected here about October 5.

STRIKERS GIVEN \$1000 TO BUY FOOD, IS CLAIM

(Continued from page one)

will enable working men to exist on the waterfront," said Edwardson today. "We have in the last 12 hours received financial backing we did not expect, so our members will get enough to eat for a month to come, whether they are able to pay their house rent or not."

Mayor is Investigating

"We are prepared to meet and arbitrate with shipping men at any time," he added, "and with the assistance of Mayor Lane we hope to arrange a meeting between employers and the union, at which both sides can express their views and meet on common ground. It was my suggestion that the union should ask the mayor for his assistance in arranging a conference." As reported by the Star-Bulletin Thursday, Edwardson and Secretary Moses K. Kahne of the Honolulu local, I. L. A., called on Mayor Lane and requested that he look into their claims and see what can be done toward settling the strike amicably.

Mayor Lane received this morning a letter from the union setting forth its grievances and asking the mayor to use his influence in order that the strike may be settled quickly and as quietly as possible.

Action Expected Today

As a result the mayor said this morning that he would investigate the local's claims, the principal one of which is that because of the high cost of living the men need higher wages. Before the day is over he will let them know what he has decided. This afternoon Mayor Lane sent to all of the local shipping firms letters asking them to arrange a meeting to discuss the strike question and decide upon some course to settle the trouble.

Controversy Over Lurline

Officials of the union this morning pointed to the Lurline's late departure for Kahului, at 4 a. m. today, as showing that the strikebreakers hired by McCabe, Hamilton & Renny are not discharging steamers as rapidly nor efficiently as the veteran stevedores in the union can do. To this the stevedoring firm replied that the Lurline was more than 12 hours late arriving from San Francisco, that their non-union men discharged her Honolulu cargo of 6580 tons in 41 working hours, an average of 160 tons per hour, which could not be bettered by anyone, they assert.

Union Asserts Cost More

Other union men who watched progress of work on the Lurline Wednesday and Thursday and the Hyades today, claim that with non-union men it has this week been necessary to hire 20 men to a sling, to handle as much freight as eight experienced stevedores, such as belong to the union, can discharge or load in a given time. On this basis, they say, the strike is costing shippers more even at the old wage-scale than had they granted the union's demands, owing to the larger number they have had to employ.

McCabe, Hamilton & Renny had 175 men working the Hyades full blast today, of whom they claimed at least 75 were Hawaiians and the balance Japanese.
